# ADVANCEMENT THROUGH TECHNOLOGY

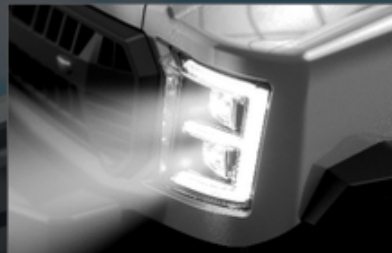

## APPLE CAR PLAY/ ANDROID AUTO

The 9" touchscreen with our integrated control display system features Apple Car Play, Android Auto, Bluetooth, and AM/FM Radio.

## BLUETOOTH PUSH BUTTON START

Personal bluetooth key bringing added security, Multi function switch that includes emergency lights, USB and USC charging ports, and extended range control.

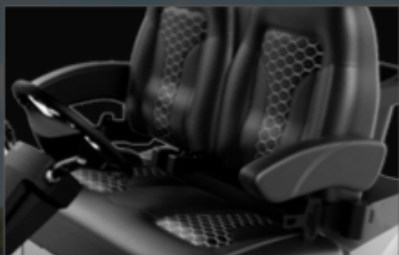

## AUTOMATIC LIGHTS

Our high performance LED headlights feature high-low beams, daytime running lights, and turn signals.

## EPS

The advanced EPS system provides car like power steering. When the cart is at slower speeds it engages the "self-centering" power assisted steering and when at high speed it provides assisted torque to ensure safety and stability in driving.

## PREMIUM SEATING

Our seats are made with some of the thickest foam in the industry and includes classy stitching patterns, fold down armrests, retractable seat belts, marine grade, vinyl, and come available in a variety of custom colors.

## TPMS

Our on-screen tire pressure monitoring system is the first of its kind with built in real time pressure monitoring for each tire.

## BRAKE LIGHT WITH BACKUP CAMERA

Our one of a kind brake light come with a built in backup camera to make your experience with driving even easier. Display will show on the 9" LCD Touchscreen.

## NEWLY DESIGNED DASH

Conveniently designed to easily store your phone, golf balls, and drinks as well as placing other valuables in the lockable glove box.
